

**VenoTrain®**  
*My health – my style.*

## VenoTrain®

Making life easier: this has always been the ultimate aim of VenoTrain compression stockings. As a medically proven form of treatment, these compression stockings counteract venous complaints, keeping the legs fit for the demands of everyday life.

Scientific studies show that one in five women and one in six men suffer typical symptoms such as varicose veins or heavy legs, due to a hereditary predisposition or strain at work, as well as the associated secondary risks.

VenoTrain compression stockings noticeably improve circulation and are available in various styles, compression classes and designs.

### ***My health – my style:***

*as individual as you are and with a medical effect that you can rely on: VenoTrain compression stockings.*

In standard cases, highly elastic compression stockings in compression class 1 or 2 are recommended. Since an optimal fit is crucial for the medical effect, your legs are individually measured for your stockings by your health care professional.

As an alternative to the custom-made solution, the Bauerfeind Perfect-Fit System allows for a high proportion of compression stockings to be provided from the standard product range.

*This brochure provides information about selected VenoTrain products for mild to moderately severe vein problems, as well as for medical preventive action and support during pregnancy.*

**For further information,** please consult your health care professional or visit our website at [www.bauerfeind.com](http://www.bauerfeind.com)

## VenoTrain® *micro*

*The elegant classic:  
for everyone who feels young at heart.*

The internationally popular compression stocking with a particularly high microfiber content for lightweight wearing comfort.

Available with an opaque finish in many designs and with a wide selection of discreet shades to suit your individual style.

The VenoTrain micro is also ideally suitable for work and travel, as well as for preventive care and during pregnancy.

*"I am delighted that the VenoTrain micro supports me through my day!"*

**Birgit** (housewife)

## VenoTrain® *micro*

*Show your colors with our fashion colors:  
greater individuality for your health.*

For both the young and the young at heart – being fashionably on trend is always an expression of your personality. Stay true to your style, strike a contrast or opt for a color-coordinated look:

the VenoTrain micro is also available in attractive fashion colors that reflect the color trends of the season.

*“Compression stockings that are available in fashion colors – to me that’s almost modern art!”*

## VenoTrain® *micro*

*The new design edition:  
dressed to impress with contemporary style.*

You are the best judge of what suits you well.

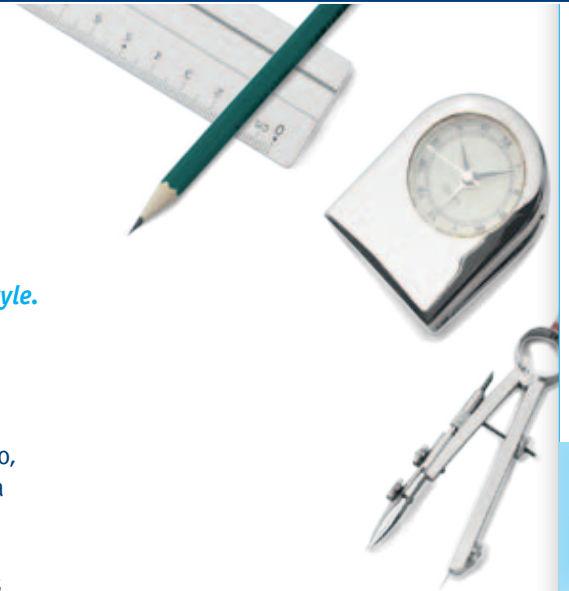

Make an impact with the VenoTrain micro, the modern compression stocking with a particularly high microfiber content:

now also available in attractive patterns with discreet shades or in the latest fashion colors for a confidently stylish appearance for both work and leisure.

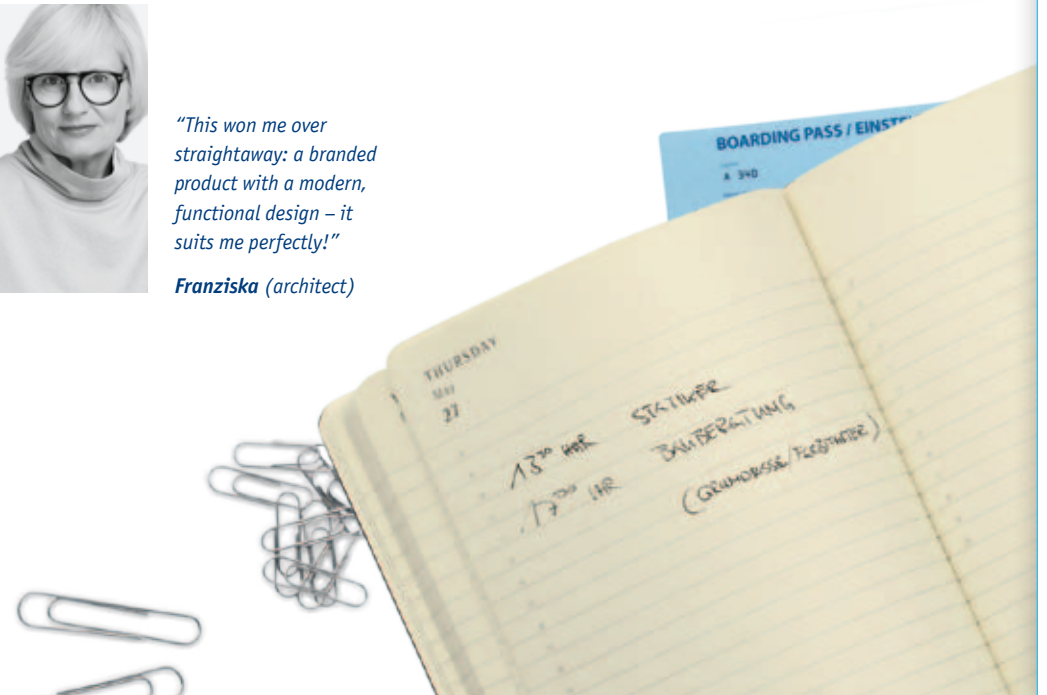

*"This won me over straightaway: a branded product with a modern, functional design – it suits me perfectly!"*

## VenoTrain® *micro balance*

*With an integral skin care substance:  
so you can feel comfortable in your own skin.*

Sensitive skin needs the right care, yet many creams are unsuitable for use with modern compression stockings.

The VenoTrain micro balance is particularly skin-friendly thanks to its high microfiber content, and it has also been enriched with active skin-care substances so that your skin will remain smooth and supple, and the stockings are even easier to put on and take off.

The stockings come with an easy-to-use reload emulsion for skin care with a lasting effect that has been proven in clinical studies.

*"A compression stocking that provides cream for my legs, keeping the skin supple: it just does me good!"*

## VenoTrain® look

*Fashionably chic with a glossy effect:  
for everyone who loves something special.*

A real highlight among medical compression stockings thanks to its brilliant shine:

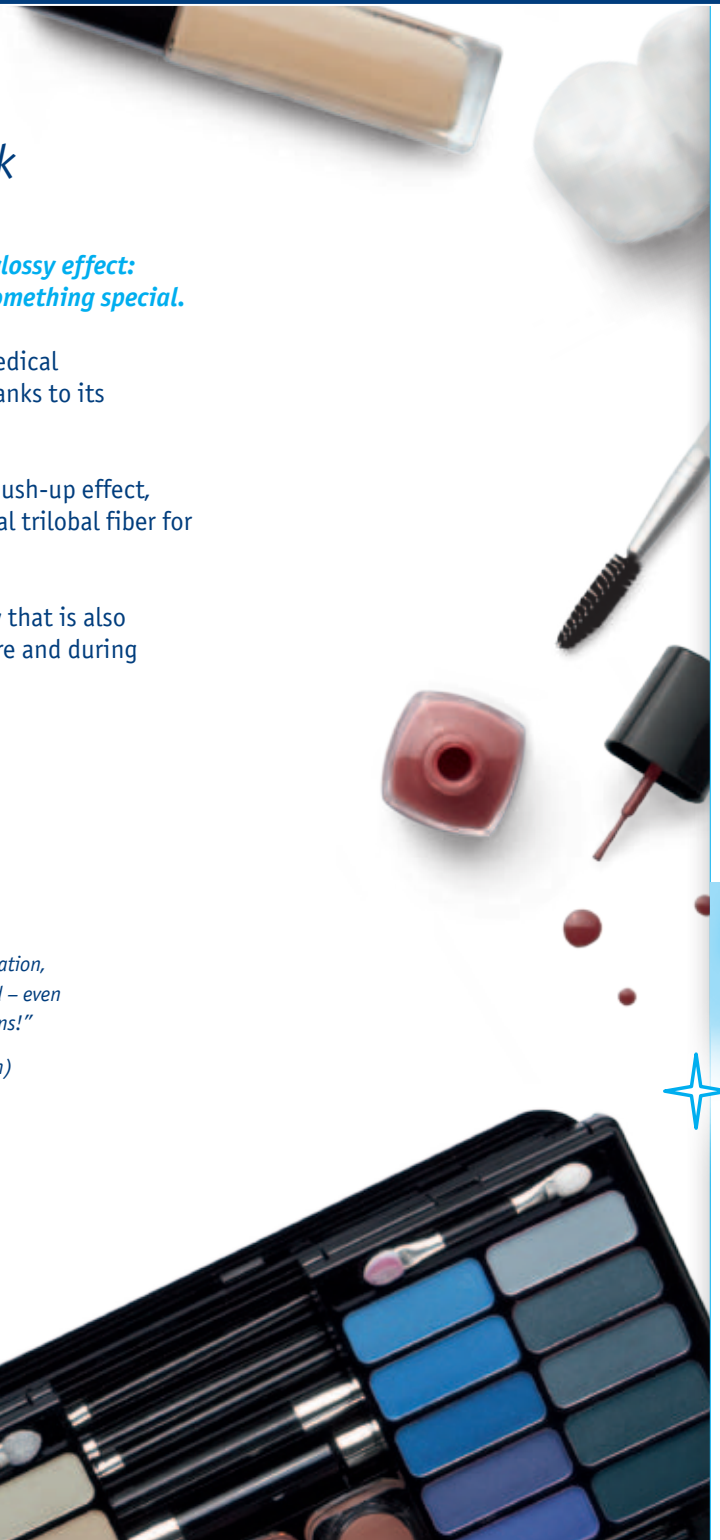

figure-enhancing with a push-up effect, stretch comfort and special trilobal fiber for a perfect fit.

The fashionable accessory that is also suitable for preventive care and during pregnancy.

*"With this combination,  
I always look good – even  
on special occasions!"*

## VenoTrain® soft

*Just naturally and wonderfully soft: comfort, just as I like it.*

The VenoTrain soft makes life easy: extremely skin-friendly, soft and comfortable, robust and reliable, and for both him and her.

Available in many designs with a proven medical effect and a beneficial massage action.

Also available as the VenoTrain soft S, featuring a wide heel and comfortable instep for people who spend much of their time sitting.

*"It's lovely and soft and helps me get through my work. And I'm always glad to have a bit of help!"*

**Bettina** (gardener)

## VenoTrain® business

*Perfect for a long day –  
while traveling or at work.*

Timelessly elegant with a discreet ribbed appearance, the VenoTrain business meets every requirement for a high-quality men's stocking:

the special mix of cotton and Tactel® sports fiber offers first-class wearing comfort with thermal regulation.

Highly elastic LYCRA® soft and the extra-wide comfort top ensure that the stockings are easy to put on and stay perfectly in position.

With a reinforced sole and Timbrelle® high-tech fiber for long-lasting freshness and healthy foot conditions.

## VenoTrain® glider

VenoTrain® glider is the practical aid for putting on and taking off all types of medical compression stockings.

### *Hard-wearing material.*

Stable and tear-resistant, extremely lightweight.

### *Time- and space-saving.*

Quick and easy donning and removal of products, also ideal for travel.

### *The correct care – and safe handling.*

Compression stockings are individually fitted and should be worn daily.

We recommend washing them every day (by hand or in a 30 degree machine wash) with a suitable detergent in order to ensure the lasting secure grip and elasticity of your stockings. When you receive your first pair of compression stockings, consider purchasing a second one so that you can still wear your stockings when one pair is in the wash.

Compression stockings should be put on gradually. Before putting them on, your legs must be dry and free from any creams, oils or ointments. When putting on your stockings, please do not over-stretch them or pull them up by the top band; instead spread the material smoothly and evenly over the leg. Please take particular care if you have sharp finger nails or are wearing jewelry.

Practical accessories such as Bauerfeind gloves and the VenoTrain glider make your compression stockings particularly easy to handle.

## VenoTrain® Accessories

### *Protects your stockings.*

A **lingerie bag** is a safe way to protect VenoTrain® compression stockings with every machine wash.

### *Gentle on your stockings.*

The **special detergent** cleans gently, ensuring careful treatment of and providing lasting protection for your products.

### *Helps your stockings stay in place perfectly.*

The **silicone top band cleaning cloth** is used to make sure that the top band keeps the stockings in place even on long days.

### *Making it easier for you.*

**Rubber gloves** make donning compression stockings easy.

### *Wears well all day long.*

The **non-skid sole** prevents slipping out.
